

SBIR/STTR Programming At-A-Glance

BBCetc offers a complete suite of services including training, proposal preparation and review, and post-award assistance for the Federal Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs. Contact us to discuss your needs and learn how we can collaborate to build SBIR/STTR awareness in your ecosystem and improve the competitiveness of SBIR/STTR proposals for your entrepreneurs.

Onsite Training

Years of experience have shown that face-to-face training can be a critical factor in successful proposal development. BBCetc offers a wide range of SBIR/STTR-related training programs for entrepreneurs and SBIR support organizations including:

- SBIR/STTR basics and introduction
- Intensive agency-specific programs covering one or more agencies
- Grants management and post award training
- How to assess client eligibility for SBIR - for service providers in your ecosystem
- Preparing SBIR/STTR commercialization plans

Programming is customized to meet your needs and can include not only traditional workshops, but also lunch-and-learn programs for time-crunched audiences and one-on-ones with companies.

One-on-One Consulting Programs

BBCetc consults with many companies that are sponsored by client organizations. Services available for these programs include:

- One-on-one telephone assessment of company eligibility and readiness for SBIR/STTR
- Assistance in identifying appropriate solicitations
- Guidance on proposal preparation, including review of technical objectives, hypotheses, and drafting supporting documents, and proposal edits with extensive interactive feedback
- Hands-on help with agency registrations and electronic submission
- Post-submission support, including proposal revision and resubmission

[Contact us](#) for examples and advice.

Cohort Programs

Cohort programs are typically structured for a group of companies targeting a specific agency's deadline with companies selected through a competitive process. Programming includes intensive onsite training, eligibility assessments, an optional series of interactive webinars and one-on-one SBIR/STTR proposal development assistance. Applicants complete an online assessment form followed by a call with a BBCetc consultant, who provides a report on and recommendations for each applicant. The client then selects cohort participants, and BBC provides regular progress updates on participating companies.

BBCetc suggests various ways of approaching pricing for cohort programs. We are happy to recommend alternatives based on your budget and objectives. [Contact us](#) for more information.

Webinars

BBCetc webinars cover a wide spectrum of focused SBIR/STTR topics, such as how to complete SBIR forms, electronic submission, agency program overviews, etc. Single webinars or webinar series can be scheduled for clients needing to reach companies in numerous locations or for small groups in a single location where discussion can be interactive. Clients can also arrange access to our Pursuit recorded [webinar library](#) for their companies.

Grants and Contracts Management Services

BBCetc provides post-award grant and contract management assistance to companies. This service includes comprehensive one-on-one consulting plus BBCetc's agency-specific tools, including documents and templates typically required by federal agencies. Services can include such things as:

- Understanding what is required for a compliant accounting system
- How to get started - how to get the money
- Development of policies and procedures
- Monitoring of award funds for budget compliance

SBIR/STTR Assessments: Eligibility, Suitability, Readiness

BBCetc provides SBIR/STTR assessment services for economic development and institutional clients to screen current or prospective program participants. Based on information gleaned from an assessment form, followed by diligence on and a call with the applicant, BBCetc provides written feedback on eligibility, project suitability, readiness and recommendations for next steps. This expert input helps clients make decisions on the best use of resources, what training to offer and which clients to support for further SBIR/STTR consulting assistance.
